Daniel H. Wagner Associates, Inc
Human Resources Administrator

March 31, 2017

Dear Ms. Teresa Lewis,

I am a rising junior Computer Science major at Allegheny College, and am very excited to be applying for a summer internship at Daniel H. Wagner Associates. I learned about the position from a classmate who is in touch with an alumna currently employed at Wagner Associates.

Through my coursework and personal projects, I have developed strong interests in artificial intelligence (especially in neural and Bayesian networks), mathematics, and software development. Thus, I was immediately interested in this position as Wagner Associates' research and work in these areas would excellently complement my own studies and passions. In addition, I grew up among U.S. Navy personnel, and would greatly appreciate the opportunity to contribute my skills to research and development for the uniformed services.

Please do not hesitate to contact me for any additional materials or clarification. I am available through my email (saejinmh@gmail.com) or phone (757-777-4868). Thank you for your kind consideration.

Sincerely,

Saejin Mahlau-Heinert
